Ms. Jennifer Petricek
8th Grade Teacher
Mitchell Middle School
2701 Drexel Ave.
Racine, Wisconsin 53403

Dear Ms. Petricek and Students:

We received your very nice letters about Paul Davis completing the work at your school after the devastating fire. We hope that you are excited about being back to school at Mitchell and experiencing all of the newly restored areas and school equipment.

We have enjoyed working with your teachers and officials on this project. Thousands of hours were spent cleaning and repairing the middle school and we're preparing to start our work soon to restore the elementary school.

Our job was so interesting with securing the building and demolition work along with clean-up and restoration, plus repairs from smoke, soot and water damage in the historic building. Even the contents in your classrooms and lockers were carefully removed, cleaned and returned in exact order. Now, everything is even better than before, and fresh and clean.

Our thanks go out to you and your families while we made the school and your learning environment safe and whole again. Working with the entire team at Racine Unified School District included officials, teachers and facilities specialists who were very important in the process. This was a positive opportunity for Paul Davis National and Paul Davis Restoration and Remodeling of Southeast Wisconsin, our local office in Milwaukee.

We wish you a successful and happy school year and a wonderful summertime. Paul Davis looks forward to sharing more information with the class about this large project.

Remember, that together we made a temporary disaster become a better experience for everyone. Again, thank you for your caring thoughts and letters.

Sincerely,
J Murphy, LHD
